IVA PS-12R2 LOUDSPEAKER

RUGGED ROBUST ROADWORTHY

DESCRIPTION

What do you think is good value product? IVA PS-12R2 give the best value in your investment by giving you a very powerful audio and great sounding box. We have selected the best performance woofer and tweeter in its range for the loudspeaker. Coupled with our 13 years of experience in audio, we designed the crossover with the best grade of electronic components in its range. And it fits perfectly between the of the woofer and tweeter. The resultant of the ultra-detail crossover design is the ultra-linear crossing between the tweeter and woofer. For ordinary people, this linear crossing of the sound will be so sweet that it will be a listening sensation to the ears. The cabinet design itself was design from a user perspective. So much of the human touch was included in the design, making it one of the most portable friendly loudspeaker design. To amplify the performance, use IVA amplifier and IVA digital speaker management to elevate your system to next level.

PS-12R2
