

Frequency Range:	UHF 640-695MHz
Modulation Mode:	Wideband FM
Harmonic radiation:	<-65dBm
Oscillation:	PLL syntheized
Microphone head:	Capacitive, hypercardioid unidirectional
Bandwidth:	30MHz
Maximum deviation:	±45KHz
RF power output:	15mW
Battery:	1×18650 lithium battery
Charging port:	TYPE-C
Current consumption:	<160mA
Continuous working time:	Approximately 6 hours

- ◆ It has the function of displaying the meeting mode.
- ◆ It has the function of displaying the number of speakers.
- ◆ It has the functions of displaying the communication channel, unit number, and battery level.
- ◆ The microphone has volume adjustment functions, which can independently control the volume of each microphone.
- ◆ Long-pressing the power button on the right can manually set the communication and unit number.
- ◆ Full-touch buttons create a sleek, modern, and technological feel.
- ◆ A 2.4-inch TFT color display can show all statuses of the microphone.
